Hello,

I briefly wish to share a few lines about my concerns for 310 Division Street becoming the new Transition House.

I am a life long resident of Northumberland county and work downtown Cobourg [REDACTED]. I raise my (soon to be) three children where I grew up with a sense of pride.

I never expected to share that I do not feel safe walking from work to my car when the downtown clinic closes after dark. I am hypervigilant of where I park for preschool drop off and beach days with the kids. Unfortunately these concerns are directly related to the proximity of the emergency shelter.

I appreciate the need to support those seeking shelter but I hope to be another voice to plan and work with the public and local businesses in this project.

Thank you for reading,

Abby
